Philanthropy is a community's active efforts to promote well being and is characterized by dispensing or receiving aid for humanitarian purposes. It enriches everything – from the air we breathe to the beaches we enjoy, from a neighborhood soccer league to the local senior center. And the way to build this strong foundation of philanthropy is to give in your home community.

The Foundation is proud to announce that the 2003 Annual Report has been mailed. At this time of the year, we are particularly appreciative of the members of the business community who underwrite its publication.
